

Regulator Flashback Arrestor

FEATURES:

- For connecting at cylinder regulators and tapping points
- According to EN 730-1, ISO 5175
- Protect against dangerous gas mixtures by a gas non-return valve
- Stops flashback through flame arrestor
- Dust filter protects the gas non-return valve against contamination
- 100% tested

Torch Flashback Arrestor

FEATURES:

- For a torch protection
- According to EN 730-1, ISO 5175
- Protect against dangerous gas mixtures by a gas non-return valve
- Stops flashback through flame arrestor
- Dust filter protects the gas non-return valve against contamination
- 100% tested
