- also suitable for detecting and lifting falling down screws, nuts, etc. using accessories provided
- adjustable lighting in camera head
- screen size: TFT LCD 84 mm (3.31 inch)
- contrast: 300
- brightness: 220 cd/m<sup>2</sup>
- power supply: 4x AA battery 1.5v
- work time: max. 6 hours
- consumption current: 238 mA
- video output impedance: 75 ohm
- video signal level: 0.9 - 1.3 Vp-p
- imaging sensor: CMOS 2.82 mm (1/9 inch)
- effective pixel: 640 x 480
- video system: PAL / NTSC
- horizontal viewing angle: 48 degrees
- waterproof capacity: IP67 (lens and tube only)
- tube length: 980 mm
- camera diameter: 8 mm
- dimensions of handle: 257 x 92 x 44 mm (excl. tube)
- operating temperature: -10 °C - 50 °C (14 °f - 122 °f)
- relative humidity: 15 - 85%
- weight: approx. 407 g (incl. batteries)

**scope of delivery:**

- 1 handle with LCD monitor
- 1 flexible tube
- 1 hook
- 1 double hook
- 1 magnet
- 1 mirror
- 2 fixing rings
- 1 video cable
- 4 AA batteries 1.5 volts

**Technical data**

Gross weight	1000 g
Operating temperature	-10 - 50 °C
Weight inc. batteries	407 g
